ABOUT YOU

When I was a little girl, I believed I was a princess until I was taught otherwise. I was told a lie and I believed it...

Hello Beautiful

For those of you that don't already know me, I'm Valerie Campbell, the founder of The Secret Vibe - your route to true love! If you're ready to turn your life around and finally get the kind of guy that you have always dreamed of, then you are in the right place!

I believed that I wasn't beautiful, talented and fabulous and so hid myself under a bushel. I put myself in the dark. I couldn't see the light. I was lost. I kept attracting unhealthy relationships!

Until one day I had a revelation and I saw a glimmer of light and I began to follow it until I found the path home, back to the real me who now stands radiant in the light! I've been where you are and so I now guide women from the dark into the light. It's effortless here, light and breezy.

Just follow me...

Are you fed up of attracting
"Mr Wrong"?

Are you fed up of attracting
"Mr Right" who turns into
"Mr Wrong"?

Is it time to attract your
"Mr Right"?

If yes... Then you need 'the secret vibe'

The Vibe that a person gives off is simply an energy that is felt by others it can be either positive or negative.

THE 'SECRET' VIBE

The Vibe that a person gives off is simply a feeling that is felt by others it can be either positive or negative.

'The Secret Vibe', the central theme to my teaching, refers to the vibe that a woman projects when she believes she is enough.

The Woman of Vibe has 'that secret vibe'. Her vibe is picked up by others as unique and different, thus makes her stand out! She exudes this intangible quality that makes her supremely distinctive and divinely attractive!

She innately believes that she was born powerful and that as a child of God or Creator, All Knowing, Source, whatever title you choose to ascribe to, that she was born 'enough', before she became attached to the illusions and the lies that told her otherwise.

To become such a woman takes some undoing and some embracing but when she does she's irresistible. The Woman of Vibe realises in being connected to who she really is, her true authentic self, she can have a Vision and with Intention Birth it into her Experience, whether it concerns matters of love, business or various aspects of life.

Want to Get That Vibe? With your permission I would like to later invite you on a 5 step journey through what I call the '**Vibes Principles**'.

But first, let's look at the embodiment of this high value woman.

I love what I do because I remind women, just like I had to remind myself, how powerful we really are. We think we are not enough. When you know that you are enough, and act from this place of knowledge the vibe that you emanate is all so powerful. Simply your poise and presence liberates others.

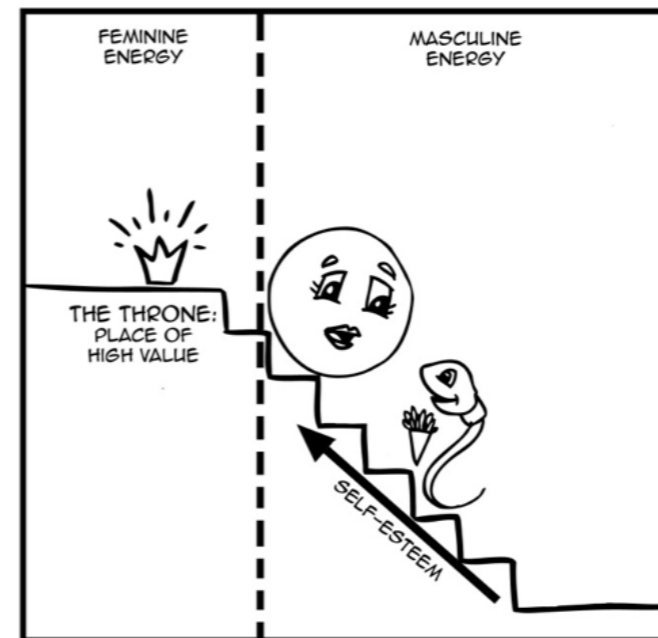

Allow A Man To Prove Himself ...When You Do, You Stand Out From The Crowd!

Do you allow a man to be a man? As he climbs the steps his self-esteem increases, i'm sure you've heard the expression, 'she makes me want to become a better man'. When you bring out the King in a man, he knows he has found his Queen!

Look What Happens When You Do Not...

Now look what happens when you do not honour your role of remaining in your feminine energy. i.e Relaxed, receiving, radiant and fun energy. Often a man will pause to gain perspective. If a woman is fearful of losing her pursuer she unwittingly steps out of her **feminine energy and over to masculine energy**. (Solution orientated, doing, "making things happen" energy!)

This is detrimental; for in her pursuers' eyes she has lowered herself from her platform onto the steps. She loses her perceived value. She loses her 'crown' as a high value woman. **Her sense of self-esteem plunders** as she begins to 'unnaturally' pursue him, she can feel that she is going against the natural order of things.

The Egg Begins To Chase The Sperm

As the role reverses she begins to send most of the texts, calls him most of the time, she over compensates and browbeats him with questions like 'where do you see this relationship going?' He thinks, if you were that amazing...you wouldn't have to do this! No high value woman does this... Thus causing the pursuer to lean back and retreat down the steps.

The pursuer is now the pursued. (A woman cannot be feminine (relaxed) and masculine (doing) energy at the same time. When you step over, you dilute your feminine energy.)

He Can No Longer Feel Your Worth

Look at the expression of the woman in the image on the left. Isn't it interesting how it feels uncomfortable for the woman to descend the steps and comfortable for him to ascend? (going against natural order, eggs don't chase sperm) In her doing this, she has emasculated him, she has stopped him from feeling 'manly' and more importantly from feeling her 'worth'. He no longer feels that drive that hunger to pursue her. Look at how she is disabling him from pursuing her, look at the gap! There's hardly room for him to manoeuvre! Why would any man make the effort when she is clearly doing **his work** for him?

Are you on your throne? OR are you on the steps? This is the question... Are you such a woman, a Queen on your platform, holding fast to your value OR are you on the steps... lowering yourself?

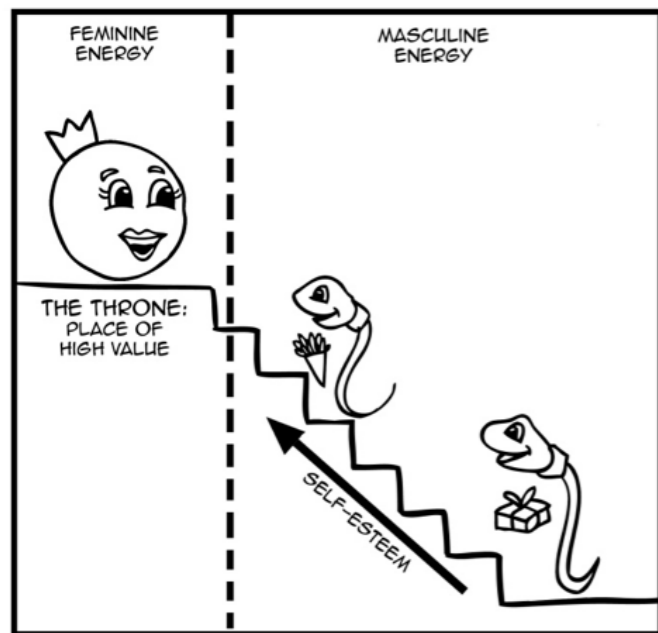

I created this image for you to check in with yourself as to whether your vibes are pulling or pushing him away? My objective here is to give you a real sense of clarity!

The "Secret Vibe" is the energy that a woman gives off from within, that secret place of knowing that she is 'simply enough'. Take me or leave me! As she glides through life on the power of her vibe!

WHAT IS "THE SECRET VIBE?"

A High Value Woman (HVW) Knows The Power Of Her Femininity

As you can see there are 2 sections to this image, to the left, feminine energy and to the right masculine energy. This image of a queen, represents a High Value Woman and here she stands in her feminine energy, with positive body language, open, to receive.

A High Value Woman Knows She Is Worthy Of Pursuit

To the right we have 2 suitors in pursuit of their Queen, bearing gifts, to prove their worthiness. Biologically speaking, it's not di-similar to how sperm, once entering the female body, chases the egg!

The High Value Woman Has A High Level Of Self-Esteem

The steps represent levels of 'self-esteem. Depending on which direction you are heading, it's either an increase or decrease!

Do You Know What Men Love?

Men love climbing the steps! Men love challenges, they love the chase, they love football, back in the day it was fox hunting! They have go-getting, result driven energy. This is masculine energy! When a man approaches a woman that he greatly desires, she must allow him to prove himself to her, and he wants her to do this as it makes him feel good and he wants to feel this way around her.

IMPORTANT

Implementation is key! If you take the action above and if a guy does not step up to the plate - it simply means, he's not your guy!

ACCEPT it.

I hope you enjoyed this short and simple e-book! I deliberately kept it short and sweet rather than rambling away so you can see, conceptually, how easy it really is.

However, understanding something theoretically and 'doing it' is usually where we fall short. I get it, I've been there!

Let me help you by offering you a very special gift!
